Concrete Innovations Learning Center is designed to bring practitioners, researchers and policy makers together to exchange the latest ideas, knowledge, and tools for sustainable concrete design, construction and manufacturing.

Award Program
The Concrete Innovations Award Program recognizes outstanding achievements in improving concrete performance and sustainability through improved products and processes.

Sponsorship
Join the National Ready Mixed Concrete Association, Build With Strength and Pave Ahead for Concrete Innovations 2022. Concrete Innovations provides outstanding opportunities to promote your products and services. By becoming a sponsor for the Learning Center and Award Program you will enhance your visibility and demonstrate your dedication to concrete innovation and sustainability. Your organization will be promoted in conference marketing materials, website, e-mails and social media.

Researchers, academics, students, engineers, architects, contractors, policy makers, public works officials, concrete producers, material suppliers and concrete industry professionals are invited to attend and present at Concrete Innovations.

LEARNING SESSIONS

Concrete is the material of choice for the tallest buildings in the world and infrastructure designed to last centuries. To meet demands for these cutting-edge projects, concrete must be stronger, more durable at a lower carbon footprint than ever before. Concrete Innovations Learning Sessions explore how new products, manufacturing methods and research are developing innovative concretes to meet these new challenges. Bendable concrete, smog eating concrete, advanced cements and carbon sequestration are just a few examples of new technologies enhancing a product that is nearly 5,000 years in development.

PRODUCT SPOTLIGHTS

Concrete Innovations provides outstanding opportunities for companies to promote innovative products and services. By becoming a sponsor for the Learning Center and Award Program you will enhance your visibility and demonstrate your dedication to concrete innovation and sustainability. Your organization will be promoted in conference marketing materials, website, e-mails and social media. Depending on the level of sponsorship, you get Product Spotlight presentations during the learning sessions and Product Spotlight online ads at www.concreteinnovations.com.

AWARD PROGRAM

NRMCA Concrete Innovations Award Program recognizes outstanding achievement in concrete manufacturing, design and construction. People, companies, products and projects that demonstrate outstanding accomplishments in concrete manufacturing, design, research and construction will be awarded for their achievements in helping improve concrete performance while lowering environmental impacts. Winners will be announced at ceremony in early 2023. Sponsors will be recognized during the award ceremony.
